

The Beaufort Regional Chamber of Commerce supports the request for beach renourishment and restoration for Hunting Island's Beach & State Park.

The Chamber encourage the swift adoption of this request, with hopes that work can begin as soon as the Fall of 2017.

The Beaufort economy is driven by the \$1.3 billion tourism industry. Visitors come to Beaufort for access to the beach and the water. Without Hunting Island, there is no public beach access -- and this is the #1 reason that tourists visit our destination.

Hunting Island is the #1 attraction in Northern Beaufort County and has been ranked by Trip Advisor as a Top Ten Beach in the entire United States. As the Designated Marketing Organization for Northern Beaufort County, we encourage the State of South Carolina to do whatever is necessary to renourish and protect this amazing natural resource that we have in our backyard.
